Wireless State and Local Solutions from AT&T

Today, citizens demand more from their government. That means you need to get more accomplished in the office and on the go. Mobile communications can boost your productivity, especially when you add data. That's why state and local governments rely on wireless solutions from AT&T.

Go to <http://www.wireless.att.com/businesscenter/business-programs/government/state-local/> to learn more about specific applications in your area of government.
